

PROJECT "BLACKJACK"

MORGAN ANNOUNCES THE LATEST EVOLUTION
IN INNOVATIVE TRUCK BODY DESIGN AND
PERFORMANCE!

Introducing **Project "Blackjack"** – where aerodynamic and lightweight design come together with ergonomic enhancements to create a truck body that increases payload capacity, supports greater range efficiency, and makes your job easier and more efficient.

**AERODYNAMIC
DESIGN**

**LIGHTWEIGHT BODY
COMPONENTS**

**ERGONOMIC
ENHANCEMENTS**

Mid-panel translucent roof allows natural sunlight while reducing the amount of heat transferred into the truck body associated with typical translucent roof panels.

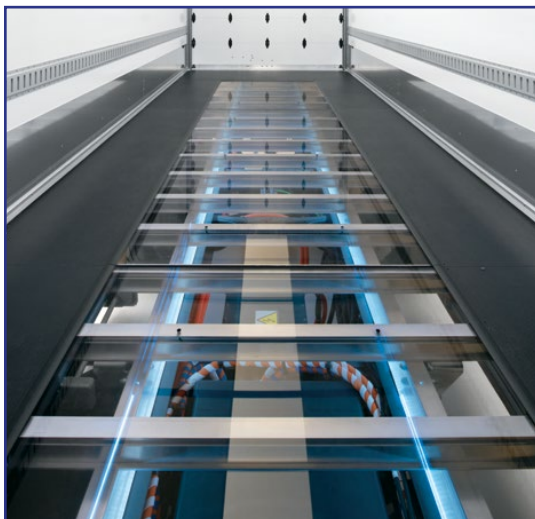

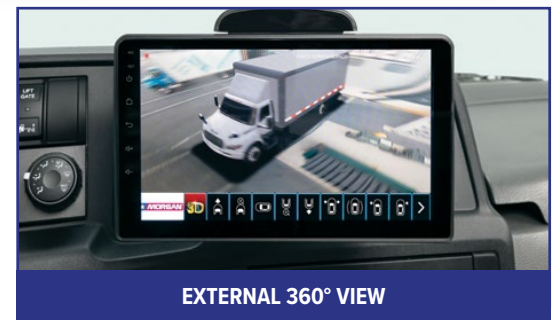

LED strip lighting provides efficient and consistent light throughout the length of the body.

MID-PANEL TRANSLUCENT ROOF LED STRIP LIGHTING

Situational Awareness Package featuring digital rear-view mirror, back up proximity sensors, 360 degree and internal cargo area cameras, and supplemental hazard detection to alert driver of potential hazards in or around the truck.

Lightweight body components, structural composite foam core panel walls, an aluminum subframe, and an encapsulated hardwood floor with anti-slip surface, are up to 40% lighter than traditional truck bodies to increase available payload capacity.

Chassis: **International® eMV™ Series**

Chassis GVWR: **25,999 lbs**

Body Model: **VFD09724096**

Body Dimensions: **24'L x 97"H x 96"W**

Chassis Weight: **14,440 lbs**
Body Weight w/Options: **3,580 lbs**

Total Unit Weight: **17,980 lbs**

Available Payload: **8,000 lbs**

THE SHAPE OF THINGS TO COME

Products as shown may include optional equipment that is not part of the standard Morgan Truck Body configuration. Some product images may differ from current configurations and may not be available as depicted at the time of your order. NOTE: All dimensions, weights, and measurements specified herein are subject to Morgan's manufacturing tolerances, may change without notice, and may vary depending on options selected. Please Contact Morgan Representative for available options, complete up-to-date specifications and for measurements for your particular truck body and chassis specifications.
